

Youth Hostel: Sky One Hostel

2024-2025 Annual Overview

1. Introduction

Sky One Hostel commenced operation in October 2024, providing up to 672 hostel places.

2. Activities

Over the past year, Sky One Hostel hosted 97 events. The events were diverse, including cake-making classes, yoga classes, film screenings, job fairs, and environmental activities. In terms of community service, tenants actively participated in volunteer work, such as assisting with voter registration and home visits. The hostel also recommended volunteer opportunities with other NGOs to its tenants, such as supporting carnival activities and participating in home visit programs.

The youth tenant activity coordination team assisted in organizing the National Day celebration events, including venue dining arrangements, tenant performances, and activity scheduling, to bring out the diverse talents of the tenants and enhance their sense of belonging.

3. Discretionary admission

In the past year, a total of 56 tenants have been granted discretionary admission as hostel tenants.

The reasons for exercising discretion include insufficient living space, with some having relocated from subdivided flats. Others are involved in assisting with volunteer training and motivating youth volunteer initiatives.
